**VIA OVERNIGHT MAIL**Ms. Alice Yeh, Remedial Project Manager  
U.S. Environmental Protection Agency  
290 Broadway, 19th Floor  
New York, New York 10007-1866Re: Supplemental Documents for the Administrative Record for the Proposed Plan of the  
Lower Eight Miles of the Lower Passaic River Part of the Diamond Alkali Superfund Site

Dear Ms. Yeh:

On behalf of the Lower Passaic River Study Area Site Cooperating Parties Group ("CPG"), we herewith deliver a list included as enclosed Attachment 1 of documents to be included in the administrative record for the "Proposed Plan for the Lower Eight Miles of the Lower Passaic River Part of the Diamond Alkali Superfund Site" ("Proposed Plan") issued by Region 2 of the Environmental Protection Agency ("EPA") on April 11, 2014 and the administrative record for the 17-mile Remedial Investigation and Feasibility Study. We also deliver a thumb drive containing various documents listed on Attachment 1 to be included in the same administrative records.

These items contain significant information not contained elsewhere in the administrative record which could not have been submitted during the public comment period and which substantially support the need to significantly alter the response action. In addition, we have included historic documents that we believe should have been reviewed by the agency and should already be part of the administrative record, since these documents contain fundamental information regarding the Diamond Alkali Superfund Site and should form the basis for the selection by EPA of a response action for the lower eight miles of the Lower Passaic River Part of the Diamond Alkali Superfund Site.

The CPG continues to assert that EPA should abandon the improper and procedurally defective Focused Feasibility Study ("FFS") and Proposed Plan process, and focus on the 17-mile draft RI/FS reports that were, unlike the FFS and Proposed Plan, prepared in a manner that is consistent with CERCLA, the NCP and under the RI/FS AOC.

These documents are submitted for inclusion in the administrative record and are not intended as an admission of any fact, or of the liability of any CPG member.

Ms. Alice Yeh  
December 29, 2015  
Page 2

The CPG has provided a copy of this letter and Attachment 1 to the parties listed below, and will provide a copy of the thumb drive upon request. Thank you for your attention to these documents.

Very truly yours,

William H. Hyatt, Jr.  
Coordinating Counsel
